Outdoor Competitions Weather Policy

Purpose

This document is designed to set forth the weather standards which Frankston and District Basketball's (FDDBA) outdoor competitions must adhere to so that participants are well protected, and courts are safe for play. This policy is designed in addition to the risk assessment strategy the FDDBA has performed.

Wet Weather

Weather conditions that are forecasted to be inclement via the Bureau of Meteorology the morning of the competition date will be reviewed by FDDBA officials via www.bom.gov.au. Particular attention will be paid to the following variables (and associated weather radars):

- Wind (and associated warnings in a region)
- Rainfall
- Hail
- Lightning

FDDBA officials will complete a safety inspection prior to the scheduled matches.

If conditions are deemed to be extreme, FDDBA may elect to:

- a) Abandon all outdoor matches and postpone, or:
- b) Decide via timeslot

If matches are forfeited, team managers will be notified within the hour preceding their first match at the latest.

If weather conditions deteriorate during play, FDDBA referees must liaise with FDDBA officials regarding the safety of the playing surface and may request an abandonment of matches if it is of their opinion that it is unsafe to continue play. FDDBA officials will consider this request after liaising with FDDBA referees and the coach/representative of both playing teams.

Hot Weather

[FDDBA's Heat Policy](#) is applicable for outdoor competitions.

FDDBA recommends that all participants apply SPF50+ sunscreen in preparation for their matches. FDDBA will provide sunscreen on the day of a given competition. Further details and information on Hot Weather guidelines can be found in the Vicsport [Hot Weather Guidelines for Sport and Active Recreation](#) publication.

Rescheduled Matches

Matches that are abandoned due to inclement weather will be rescheduled to the following Sunday.

FDDBA Risk Assessment – Outdoor Basketball Competition

This risk assessment has been completed to identify additional risks relevant to hosting an outdoor event only. All other inherent risks associated with standard FDDBA operations are assessed external to this document.
